## PROJECTS

---

### Graduation Project [↗](#)

#### GitHub Link [↗](#)

my graduation project, developing a Full Stack E-Commerce Platform that integrates Augmented Reality (AR) and 3D Modeling. This innovative project aims to revolutionize the online shopping experience by allowing users to visualize products in their real environment, enhancing decision-making and engagement.

### Islamic website [↗](#)

#### GitHub Link [↗](#)

- Integrated complete Holy Qur'an and over 300 noble hadiths.
- Implemented prayer timings and user-friendly interface using HTML, CSS, JavaScript, Bootstrap, and RESTful API.

### Crud App [↗](#)

#### GitHub Link [↗](#)

- Developed a CRUD application using React.js and JSON Server for data management.
- Utilized Axios for HTTP requests and SweetAlert for customizable alerts.

### E-learning-website [↗](#)

#### GitHub Link [↗](#)

- Created an e-learning platform with course playlists, quizzes, and user authentication by local storage.
- Technology Stack: HTML, CSS, JavaScript, Bootstrap.

### Sinai-University website [↗](#)

#### GitHub Link [↗](#)

- Developed an interactive campus map and detailed college descriptions.
- Utilized HTML, CSS, JavaScript, and Bootstrap for a responsive design.

### Personal Portfolio [↗](#)

#### GitHub Link [↗](#)

- Built a personal portfolio using React.js to showcase skills and projects and experience .
